

INTERNATIONAL DUAL DEGREE TELECOMMUNICATIONS

SCHOOL OF ENGINEERING AND TECHNOLOGY

ABOUT THE PROGRAM

Not only 2 degrees, but also experiences in two different countries. Great opportunity to study with the global pioneer in the deployment of 5G and research in the 6G Flagship research program at University of Oulu (UOULU), Finland, the land of Santa Claus and Magical Light.

APPLY NOW

FOR AUGUST SEMESTER 2020

- Full Scholarships Deadline:
29 February 2020
- Partial Scholarships Deadline:
30 May 2020

Master's Programme on Wireless Communications Engineering (WCE) is a two-year full-time programme focusing on advanced 5G and beyond. The programme provides the students with knowledge and skills in fundamentals and applications (e.g. Internet of Things (IoT), Wireless Networks, Signal Processing, Estimation and Detection Techniques, Artificial Intelligence (AI) Embedded Systems). The solid foundations provided are further strengthened with students' exposure to the industry environment and ongoing research projects at Centre for Wireless Communications (CWC).

AIT's Telecommunications (TC) program in partnership with University of Oulu, Finland offers Dual Degree Master Programme in Wireless Communications, giving you leading education in wireless technology in Thailand and in Europe.

RESEARCH AREAS

5G, IoT, Medical and Health ICT, Networking, Radio Technologies, Specialised Wireless Solutions, Signal Processing and Optimisation, Secure Virtualised Networks, Radio Frequency Designs, Artificial Intelligence (AI) based Solutions.

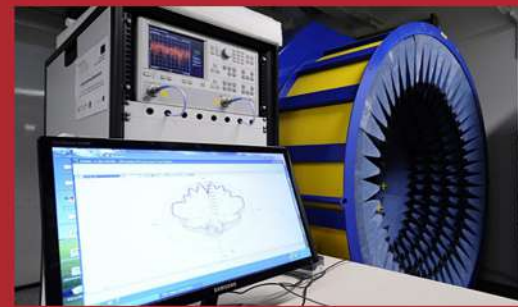

Expenses at AIT

The applicants will be considered for the full or partial scholarships at AIT as per the applicant's qualification. For more information, please go through AIT Scholarships link provided.

Expenses at Finland (one year)

- Accommodation cost from 190 to 250 EUR per month.
- Flight ticket 800 EUR
- 25% tuition fees (UOULU) 2,500 EUR
- Possible Master's thesis scholarship

ELIGIBILITY & APPLICATION

The applicants with bachelor's degree in Telecommunications or related field of study must have CGPA ≥ 2.75 or $\geq 68.75\%$ along with a valid (in the last two years) IELTS score 6.5 (with a minimum of 5.5 per each section). Other equivalent English certificates are also accepted.

Interested applicants wishing to enter the dual degree programme must first apply to AIT in Telecommunications program where the applicants are shortlisted after finishing the first semester in AIT. List of recommended students (max. 10) by AIT.

Online applications to UOUIU by the students. List of accepted students for the AIT. Letter of Admission or Letter of Conditional Admission sent to accepted students via email. Confirmation of study place by the students. At least 2 months internship recommended during the programme.
